carefree day.**

CERTAS alarm

Don't worry. Live safely.

PROFESSIONAL HANDLING OF ALARM NOTIFICATIONS IN THE EVENT OF A BREAK-IN, FIRE OR TECHNICAL PROBLEM

With CERTAS alarm, you can always rest assured that all necessary measures will be taken in the event of an alarm – at all times and in all circumstances. CERTAS alarm is a service for companies of all sizes in all industries as well as for private individuals. All you need is a hazard warning system that can be connected to our centre.

HOW DOES CERTAS ALARM WORK?

1. Signal receipt

A hazard warning system sends an alarm signal, e.g. because of a break-in.

2. Alarm

We inform the contact person defined in advance of the incident.

3. Intervention

In an alarm situation, every second counts. We take all steps required to intervene as quickly as possible.

4. Controlling

Creating a service report.

CERTAS can be precisely tailored to your needs. We would be happy to advise you on a holistic solution to protect everything that is dear and valuable to you in an alarm situation.

YOUR BENEFITS

Here at Certas, our staff respond immediately to every alarm signal, initiating the required measures agreed with you in advance without delay.

With CERTAS alarm, you enjoy more security and less stress by delegating alarm processing to our security experts. Because you can't always be on site, an alarm system is only efficient when it is connected with a Certas alarm centre.

Certas operates three redundant alarm centres in Zurich, Lausanne and Lugano. The Certas staff process the alarms in German, French, Italian and English.
